

THE ULTIMATE CHOICE

Your One Stop Lubricant Specialist

AMOIL

## About Amoil

Since 1975, Amoil (Malaysia) Sdn Bhd has been in the business of manufacturing and marketing high quality petroleum products for top brands from the United States of America and across the globe to Malaysia.

Utilizing state-of-the-art equipment, our laboratory provides stringent quality control testing of all manufactured products. Our implementation of the ISO 9001:2008 quality system helps ensure that at every level of the organization, AMOIL'S products meet the demanding requirements of the industry.

With more than 39 years of experience, AMOIL has developed the ability to formulate world class lubricants by selecting the best synthetic base oil, coupled with the right performance driving additive that gives a product performance that exceeds Industrial standard requirements.

Amoil will continue delivering innovative, superior products that will help you save money through reduced maintenance costs and improved productivity.

## Our Vision

To be one notch above everyone else in the lubricant business

## Our Mission

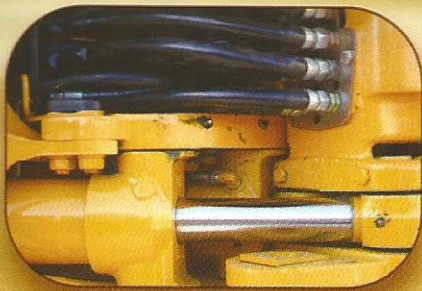

Our business is your solution to lubrication. We are the lubricant specialists

## Our Quality Policy

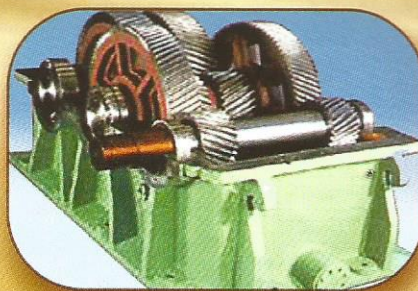

"Quality is our way of life"

# Our Products

Hydraulic Oils

Gear Oils

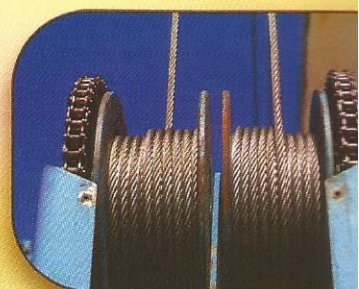

Air Compressor Oils

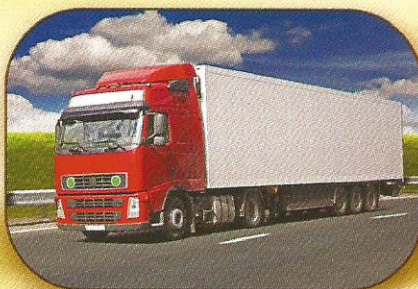

Greases

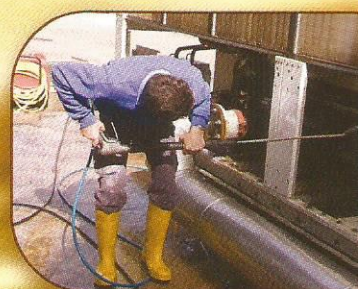

Metal Working Oils

Wire Rope Lubricants

Diesel Engine Oils

Solvents & Degreasers

# Industries We Serve

Automotive

Port / Marine

Transportation & Fleet

Transformer Oils

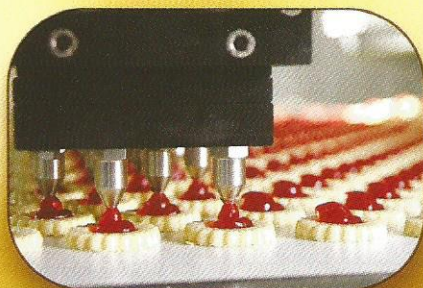

Marine Lubricants

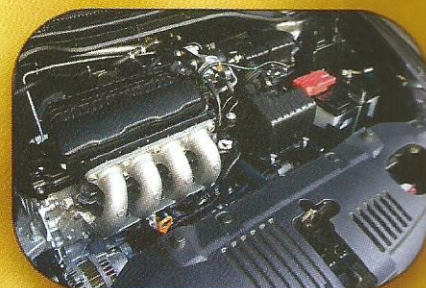

Cement Plants Lubricants

Oven Chain Oils

Food Grade Lubricants

Gasoline Engine Oils

Cooling Tower Treatments

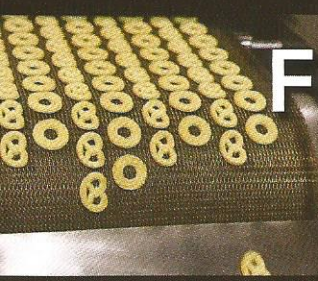

Compressed Air Solutions

Construction

General Manufacturing

Food & Beverage

Forest

## Technical Supports

In Amoil, we strongly believe our responsibility does not end at the delivery of our lubricant to the customer. Rather, it is just the beginning.

It is essential, in today's competitive economy, to keep abreast with the best practices of world-class maintenance strategies and technologies.

Our technical team is constantly comprised of qualified Mechanical Engineers and Certified Lubricant Specialists, capable of providing basic training on lubrication, plant survey, troubleshooting, machine condition

and monitoring using the Ferrography Wear Particle Analysis method.

Amoil also works together with third party Consultant Company to provide, specific equipment monitoring services such as Vibration analysis, designing automatic lubrication system, lubrication filtration services and others.

## Laboratory

To assure customers that our products are professionally and technically correct every time, we maintain a comprehensive laboratory that is outfitted with state of the art instrumentation including;

1. **Oil Analysis Optical Spectrometer** - as a quality control measure, to ensure that the right amount of additive compounds are in the finished stock.
2. **Kinematic Viscometer** - conforms to the requirements of ASTM D445 for the testing of fresh oil viscosity to ensure that it is within the ISO viscosity levels.
3. **Automatic Pensky-Martens Closed Cup Flash Point Tester** - conforms to ASTM D 95 to determine the lowest flash point temperature of lubricating oils that meet our specifications.

Our laboratory is also capable of providing oil analysis services for our valued customer such as; **Particle count meeting ISO 4406**, **Chemical property of the fluid** - Tan, TBN, Water content, Fuel dilution, lubricant mix. **Ferrography Wear Particle Analysis** - provides the earliest detection of abnormal machine wear condition.

## Sales and Services

In today's world of increased efficiency, after sales service has become a key factor in choosing a lubricant supplier.

Our well trained, knowledgeable administrative staff are equipped with the latest storage facilities, communications and information processing equipment. Therefore, you are assured of our most efficient services from the very beginning.

AMOIL understands the importance of immediate response when our customers call. Our logistics experts plan the quickest

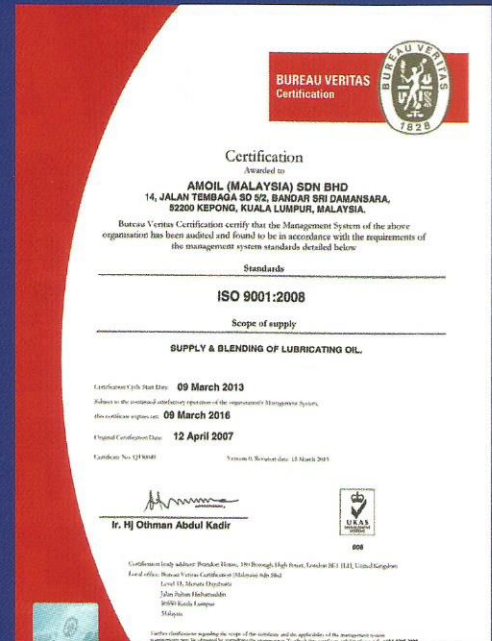

way to transport your products via our own fleet or by a contracted fleet.

In Amoil, our belief is that "Quality is our way of life" As a result, we realised "Your Satisfaction is our route to success!"

## Our Commitment

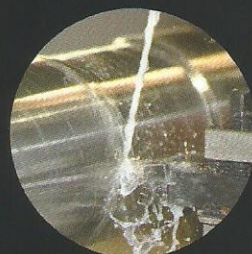

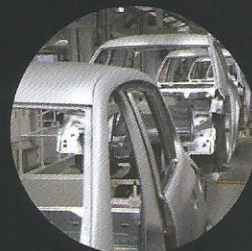

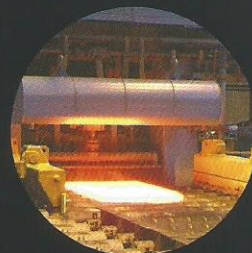

The implementation of ISO 9001:2008 Quality System is testimony of our commitment to becoming a preferred specialist lubricant brand.
